Highly organized, motivated, and outgoing individual who is passionate about creating meaningful and memorable digital experiences. Seeking a new position to further expand upon my knowledge and skillsets.

EXPERIENCE

JUNE 2017 – AUGUST 2017, OCTOBER 2018 – PRESENT

TECHNICAL SOLUTIONS ANALYST · EY

- Experienced order-to-cash workstream lead and client-facing implementation consultant of Microsoft Dynamics 365 for Finance and Supply Chain Management across various clients and industries
- Planned, developed, and implemented new functional business processes for clients concurrently with agile software implementation of D365 and supporting technical system integrations
- Additional experience in process flow design; creating functional and technical requirements documentation; UX/ UI design; design thinking; and data migration, integration, and validation
- Internally supported senior EY leadership on sales pursuits, mentored EY new hires and recruits, and served as Communications Lead for EY's entire Microsoft Practice

MAY 2016 – AUGUST 2016

TECHNICAL INTERN · BETTIS ATOMIC POWER LABORATORY

- Interned with the Bettis Atomic Power Laboratory, operated for the U.S. Department of Energy
- Determined functional requirements to individually develop a new work request system using Microsoft server applications to support the enterprise's multimedia needs

AUGUST 2015 – MAY 2018

STUDENT TEACHING ASSISTANT · UNIVERSITY OF NOTRE DAME

- Encouraged students to develop independent learning and critical thinking skills while aiding them in completing and understanding their assignments of basic engineering concepts

EDUCATION

AUGUST 2014 – MAY 2018

B.S., COMPUTER SCIENCE · UNIVERSITY OF NOTRE DAME

- Bachelor of Science in Computer Science: University of Notre Dame College of Engineering
- Study Abroad Program Assistant (2018) & Attendee (2015): London, England
- 3x Dean's List Honoree, GPA: 3.5/4.0.
